

DENTAL OFFICE CONSTRUCTION & BUILDOUTS

We build the practice you've been *planning* for.

From bare shell to opening day, Ideal Dental Construction delivers ground-up buildouts, renovations, and expansions for dental practices across Tampa Bay — engineered around your operatories, your equipment, and your timeline, with the precision your patients will feel.

Our Building Process

FIVE CLEAR STAGES

1

DISCOVERY

We learn your vision, chair count, budget, and lease — then map a realistic scope and schedule.

2

DESIGN & 3D

Full 3D coordination aligns plumbing, equipment, and finishes before a single wall goes up.

3

PERMITTING

We manage drawings, code review, and approvals so the project clears every inspection cleanly.

4

CONSTRUCTION

One accountable team builds it out — on a tracked schedule with transparent daily updates.

5

HANDOVER

Final walkthrough, equipment coordination, and the keys to a practice ready to see patients.

WHAT WE BUILD

Built for dentistry

- ✓ **Ground-up buildouts** — new dental offices delivered turnkey, shell to opening day.
- ✓ **Renovations & refreshes** — modernize an operating practice with minimal downtime.
- ✓ **Expansions** — add operatories and square footage as your patient base grows.
- ✓ **3D coordination** — clash-free planning of utilities, casework, and equipment.
- ✓ **Permitting & compliance** — full management of drawings, code, and inspections.
